

## LIFE LESSONS FOR MEAVE MCGOWAN

Meet all challenges with grace and you'll always succeed.  
Envisioning great victories is the first step towards achieving them.  
At times the simplest solution solves the hardest problem.  
Venture into the world doesn't mean forgetting where you came from.  
Even in the darkest moments in life, try your hardest to find light.

Make every friendship count because true friendship is hard to find.  
Careful planning now means avoiding careless mistakes later.  
Getting ahead start doesn't always mean starting something quickly.  
Occasions are made special when they are shared with people you love.  
Wonderful things happen when you least expect it, they are surprises.  
Anytime you help someone they are helping you become a better person.  
No matter what always remember the lessons life has taught you.
